

NAHAR NEWS | MARCH 2021

Dear Well Wisher, we have done some amazing things with your love and support in the last 30 years. What comes next is just a small addition to your inbox! We are glad to introduce our monthly e-newsletters. An easy to read, comprehensive update about what's going on at Nahar enabling you to explore the ins and outs of our company & the sector in general. Happy Reading!

New Member: Aashriya Jain

We are delighted to welcome Aashriya as our new Executive Director. Post her Bachelors in Management from Warwick Business School, UK & an MSc in Strategic Marketing from Imperial College London, UK she kick started her career as a Sales Executive at envopAP, London, a paper manufacturing & trading company. Passionate about travelling, art & all things fun, she is focused on working with enterprises that deliver a sustainable impact. She has the zeal to give 100% towards her work & bring a noteworthy contribution to this organisation. We are glad to have her on board!

CNG addition to our fleet of vehicles

At Nahar, we have always been huge fans of being green & trying to be sustainable at every step of our supply chain. We are glad to share that we have expanded our current base of vehicles with a brand new 24ft CNG container, trying to deliver your goods to you in a more eco-friendly manner.

New Godown Alert

With a strong focus on augmenting our storage capacity, we have now added a rental godown for the management of raw materials as a part of our infrastructure. Fetching us more space, more capacity, more speed & more efficiency! We are hoping to grow with you and increase our production capacities manifold, this is just a small step towards the journey.

We are proud to announce that we have successfully cleared the Continuous Assessment for ISO 50001 last month.

This provides valid proof that the manufacturing of corrugated & duplex cartons in our premises follows the highest standards of energy management using solar power, compressed air from the compressor, steam from boiler & electricity from the State Electricity Board.

WE ARE NOW CERTIFIED

ISO 50001

Benefits of the
certificate

Turbulence in the Paper Industry

For the first time in over 40 years, the paper industry is witnessing imminent shifts. Apart from covid-related challenges, the industry is now facing huge blows due to the prices of kraft paper in a short span of months. The unprecedented escalation of prices by the paper mills is proving to be a major hurdle, making businesses unviable. We kindly request our esteemed clients to assess the situation & showcase their constant support in these difficult times.

Kind Regards

Nahar Family
